Consequence of W3E Directive in AdB's activity

Social Economy

June 2008

CHANTIER D'INSERTION

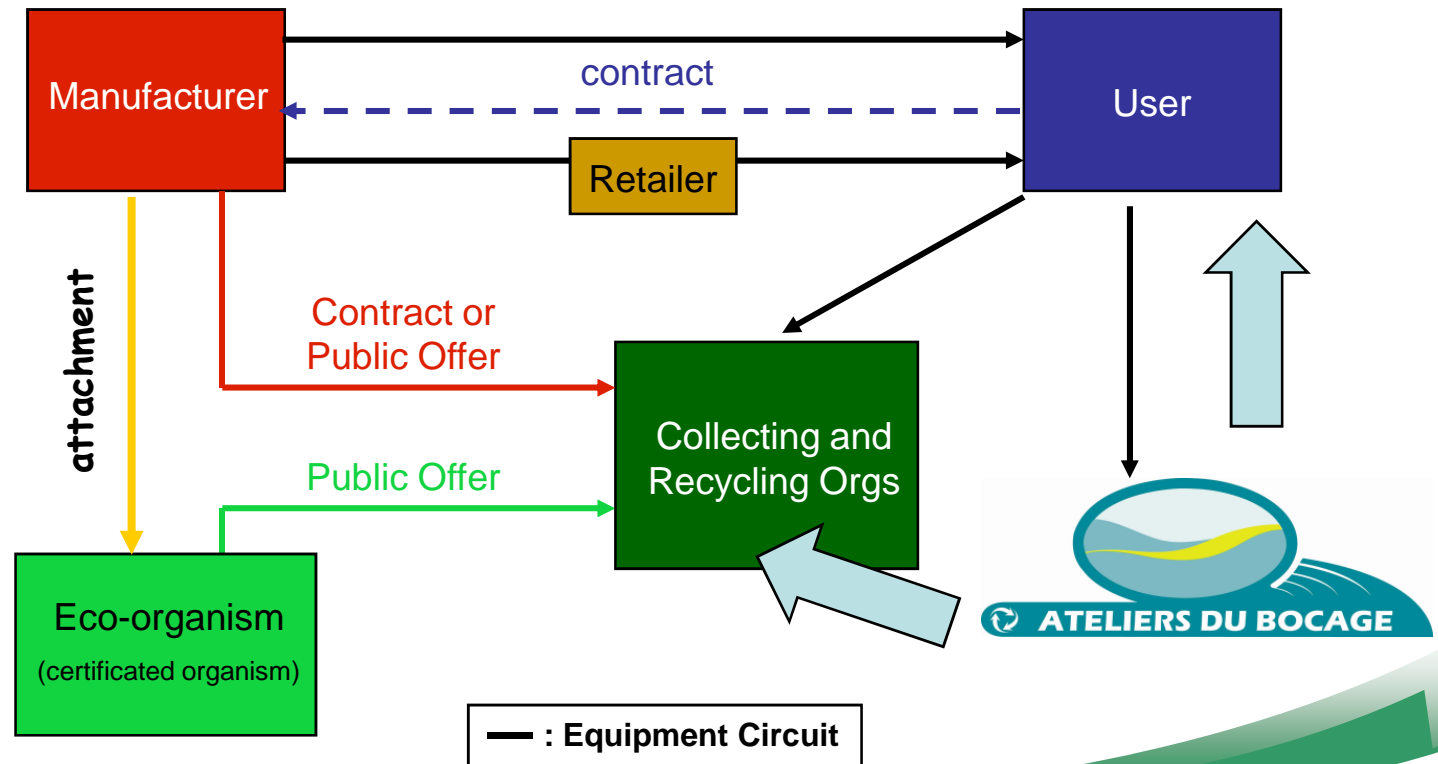

Where is the flaw in W3E directive ?

- In France the law say « Manufacturers or sellers CAN carry out their legal obligations by joining a certificated organism... »
 - > CAN : means that they can use another way, so individual partnerships can exist

Consequence of W3E Directive in AdB's activity

How AdB try to get good positions with W3E directive ?
