10 YEARS

---

## **The challenge**

The crisis of public services provision

The changing context

The role of social enterprises and social economy

The sectors and typologies of services

---

## **Main theses to discuss**

Increasing needs in care (e.g. elderly people, children, etc.)

The demand side: public sector and private customers

The supply side: atouts, problems and fears of social economy providers

Public procurement, direct agreements and fair competition

Networking at European level: usefulness, objectives and tools.
